

The Rebel™ Portable Lift is Aqua Creek's newest portable lift. With a lifting capacity of 300 lbs., it meets all requirements for the new ADA standards. The Rebel™ is a lower cost solution for facilities looking to become ADA compliant without the hassle or expense of anchoring or bonding a unit to the pool deck.

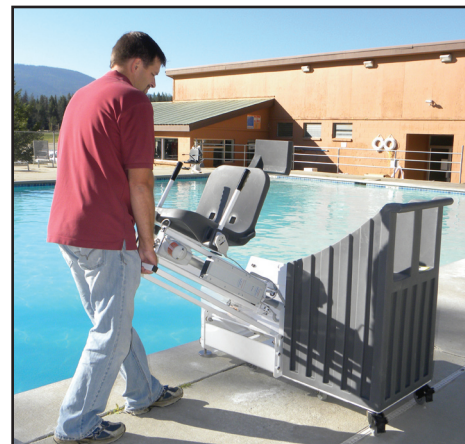

This lift requires no anchors or bonding and can easily be removed from poolside when not needed. It features a compact, low profile frame that does not intrude into the pool when not being used. A unique sliding mechanism allows the lift to be transported easily on its cart and then lowered onto the pool deck for use without using any fastening hardware.
